

JM TPO SELF-ADHERED

SINGLE PLY ROOFING

UP TO 3X FASTER INSTALLATION
THAN TRADITIONALLY ADHERED TPO*

SEE IT YOURSELF
WATCH THE VIDEO

ADVANTAGES OF CHOOSING SELF-ADHERING TPO:

FAST-ADHERING INSTALLATION

with factory-applied adhesive for "peel and stick" application. No adhesive flash-off needed

WIDE TEMPERATURE RANGE

for installation at 20°F and higher

EASY TO HANDLE

*5' JM TPO SA Flashing membrane for approved surfaces and temperatures***

NO ADDITIONAL VOC-CONTAINING ADHESIVES

STARTS STRONG & STAYS STRONG

Easy-to-apply JM TPO SA adheres strong at installation and stays strong for the life of the roof.

Every Roof Is Our Reputation

*Installation times may vary depending on conditions
**Reference the JM TPO Applicator Guide for JM approved surfaces
